CONSERVATION REPORT CARD

Evaluating the 109th Congress

CONSERVATION REPORT CARD

The Defenders of Wildlife Action Fund's *2005-2006 Conservation Report Card* measures the commitment of U.S. Senators and Representatives to wildlife and habitat conservation during the 109th Congress. It reviews 20 House votes and 11 Senate votes on key conservation issues, providing a clear assessment of how well members of Congress are protecting wildlife and wild lands for future generations.

The *2005-2006 Conservation Report Card* covers votes on issues including drilling in the Arctic National Wildlife Refuge, reauthorizing the Endangered Species Act, maintaining protections for wildlife along America's borders and safeguarding our coastal waters from oil and gas exploration and drilling.

This report card is an important resource you can use to examine what your elected representatives are doing to conserve our natural heritage for our children and grandchildren. A more detailed online version, updated after every key vote, is available at: www.defendersactionfund.org.

1. Halting a Backdoor Attack on Arctic Wildlife

By a razor-thin margin, the Senate supported a backdoor scheme to authorize drilling in the Arctic National Wildlife Refuge through the federal budget process. The Senate defeated an amendment that would have removed the drilling provision from the budget. **(March 16, 2005, Roll Call No. 52)**

2. Stopping Conservation Funding Cuts

The Senate passed a budget resolution for 2006 that would significantly cut funding for conservation and the environment and take the first step in authorizing drilling in the Arctic National Wildlife Refuge. **(March 17, 2005, Roll Call No. 81)**

3. Blocking Arctic Drilling and Budget Cuts

The Senate passed a final budget resolution that included a backdoor scheme that would pave the way for drilling in the Arctic National Wildlife Refuge and significantly cut funding for conservation and the environment. **(April 28, 2005, Roll Call No. 114)**

4. Rejecting a Damaging Coastal Oil Inventory

The Senate rejected an amendment that would have protected our coastal waters from disruptive and damaging seismic oil and gas surveys and instead included a provision that would undermine an existing ban on oil and gas drilling in U.S. coastal waters. **(June 21, 2005, Roll Call No. 143)**

5. Protecting Wildlife in Tongass National Forest

The Senate defeated an amendment that would have stopped the construction of damaging logging roads at taxpayer expense in Alaska's pristine Tongass National Forest. **(June 29, 2005, Roll Call No. 164)**

6. Challenging Shortsighted Energy Policy

The Senate passed an energy bill that would fail to reduce America's dependence on oil, address the threat of global warming, make any new investments in clean energy and, by the President's own admission, would not help consumers at the gas pump. The bill also includes a provision that would allow seismic airgun oil and gas surveys along our nation's coastline. **(July 29, 2005, Roll Call No. 213)**

7. Fighting an Attempt to Allow Arctic Drilling

The Senate passed a budget reconciliation bill that included language that would allow drilling in the Arctic National Wildlife Refuge. **(November 3, 2005, Roll Call No. 303)**

8. Thwarting a Sneak Attack on the Arctic Refuge

The Senate thwarted an attempt to add a provision to the Department of Defense spending bill that would allow drilling in the Arctic National Wildlife Refuge. **(December 21, 2005, Roll Call No. 364)**

9. Restoring Conservation Programs

The Senate rejected an amendment to the 2007 Senate budget resolution that would have restored funding for conservation and environmental protection programs. **(May 16, 2006, Roll Call No. 60)**

10. Opposing Drilling in the Gulf

The Senate voted to move forward with a bill that would undermine longstanding drilling bans by significantly expanding drilling in the western Gulf of Mexico. **(July 31, 2006, Roll Call No. 218)**

11. Securing Southern Borderlands Habitat

The Senate approved a bill that would require the construction of more than 700 miles of double-layer fencing that would have severe impacts on wildlife and habitat along the U.S. border with Mexico. **(September 29, 2006, Roll Call No. 262)**
