# CONSERVATION REPORT CARD

---

EVALUATING THE  
117TH CONGRESS, 1ST SESSION

**D**efenders of Wildlife is a national, nonprofit membership organization dedicated to the protection of all native animals and plants in their natural communities.

Defenders' approach to conservation is direct and straightforward: We protect and restore imperiled species throughout North America by transforming policies and institutions and promoting innovative solutions. Informed by scientific, legal and policy expertise, hands-on wildlife management experience and effective advocacy, we strive to make a lasting difference for wildlife and its habitat.

Defenders engages in vigorous congressional advocacy efforts in support of our mission. We express our views on legislation affecting wildlife and public lands, work to achieve acceptable pro-wildlife and habitat outcomes, and grade lawmakers on their votes in our annual conservation report card.

**D**efenders of Wildlife's *2021 Conservation Report Card* measures the commitment of U.S. senators and representatives to wildlife and habitat conservation during the 2021 session of the 117th Congress. It tells you at a glance if your elected representatives are preserving America's natural heritage for our children and grandchildren.

This report card reviews six Senate votes and six House votes with serious implications for wildlife, habitat and the environment. The Senate votes included confirmation of Deb Haaland as Secretary of the Interior—making her the first Indigenous woman to head a presidential cabinet department—and of Brenda Mallory to chair the Council on Environmental Quality. The Senate also voted on several anti-environmental measures such as continuing Trump administration initiatives to build more wall segments along the U.S.-Mexico border and to maintain an administrative rule that stripped Clean Water Act protections for thousands of waterbodies across the nation. Pro-conservation House votes included approval of landmark investments in climate mitigation and adaptation, restoration of buffalo to tribal lands and a broad infrastructure package with provisions to create a national system of wildlife corridors, restore habitat degraded by legacy roads and trails and establish a new national wildlife refuge.

FLORIDA PANTHER/USFWS

A Florida panther uses a wildlife bridge installed to facilitate travel between protected areas bisected by a busy road. The pro-wildlife infrastructure bill passed by the House in July 2021 includes funds to improve habitat connectivity nationwide by installing more wildlife-safe crossing structures and protecting wildlife movement corridors.
