technology development and conservation activities in the field. Our work is aimed at the prevention of species and habitats from becoming imperiled, the protection of endangered and threatened species and their habitats, and the restoration of the health of vulnerable species and their habitats. We are known for our innovative and pragmatic responses to a constantly changing political, economic and social environment. Our staff of scientists, wildlife policy experts, lobbyists, communications experts, and attorneys work in the halls of Congress, state legislatures, the courts, and local communities, and in numerous Defenders field offices across the country. We develop and advocate for innovative "up-stream" management solutions for public and private lands that encourage conservation of entire ecosystems and interconnected habitats. In addition, Defenders is the sponsor of a new television series, Wildlife Nation, hosted by Jeff Corwin, which showcases biodiversity conservation initiatives and partnerships tied directly to the organization's conservation mission. We emphasize collaboration with other groups as a means of bringing to bear as much collective influence as possible on policymakers and processes which are often subjected to relentless pressure from special interests. The shared goal of all of our activities is to make Defenders the nation's most effective champion of imperiled wildlife in an era of climate change and habitat loss, leading the way in meeting the challenges and seizing the opportunities that tomorrow presents to leave a rich and diverse natural legacy for future generations.
